

$$5 + 2 =$$
A visual representation of the equation 5 + 2 =. On the left, there are five pumpkins arranged in a 3x2 grid. To their right is a plus sign, followed by two pumpkins arranged vertically. To the right of the pumpkins is an equals sign.

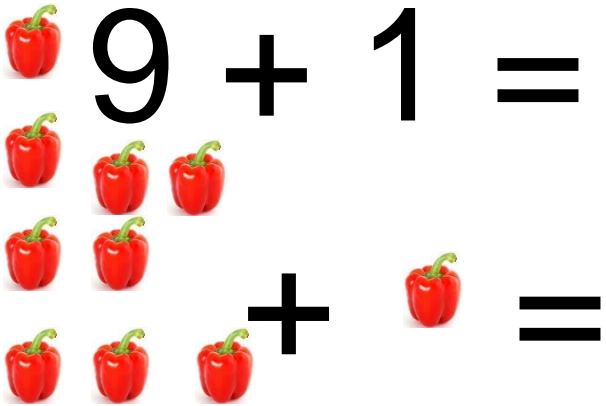

$$3 + 1 =$$
A visual representation of the equation 3 + 1 =. On the left, there are three eggplants arranged in a 2x2 grid with the bottom-right position empty. To their right is a plus sign, followed by one eggplant. To the right of the eggplant is an equals sign.

$$6 + 2 =$$
A visual representation of the equation 6 + 2 =. On the left, there are six cucumbers arranged in a 3x2 grid. To their right is a plus sign, followed by two cucumbers arranged vertically. To the right of the cucumbers is an equals sign.

$9 + 1 =$

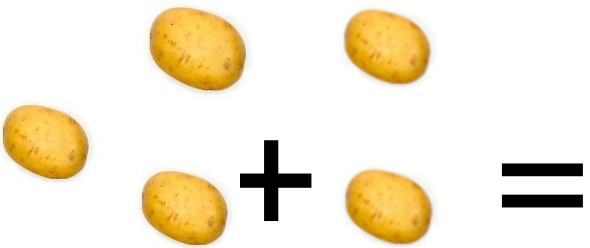

A visual representation of the equation $9 + 1 =$. On the left, there are 9 red peppers arranged in a 3x3 grid. To the right of this grid is a plus sign and one red pepper. To the right of the plus sign is an equals sign.

10

A visual representation of the number 10. It consists of 10 red peppers arranged in two rows of five.

$4 + 2 =$

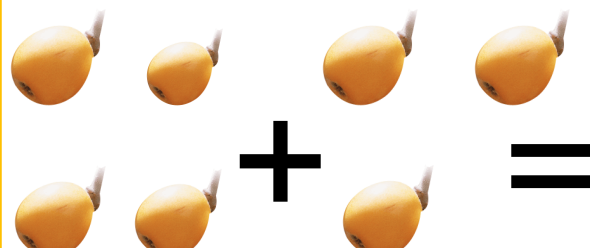

A visual representation of the equation $4 + 2 =$. On the left, there are 4 potatoes arranged in two rows of two. To the right of this group is a plus sign and two potatoes. To the right of the plus sign is an equals sign.

6

A visual representation of the number 6. It consists of 6 potatoes arranged in two rows of three.

$4 + 3 =$

A visual representation of the equation $4 + 3 =$. On the left, there are 4 mangoes arranged in two rows of two. To the right of this group is a plus sign and three mangoes. To the right of the plus sign is an equals sign.

7

A visual representation of the number 7. It consists of 7 mangoes arranged in two rows: the top row has 4 mangoes and the bottom row has 3 mangoes.

$$5 + 4 =$$

$$=$$

9

$$6 + 3 =$$

$$=$$

9
